### **ISC'10 seeks Birds-of-a-Feather Sessions, Research Posters and Student Volunteers**

HAMBURG, Germany, January 21, 2010 – **ISC'10, the International Supercomputing Conference, invites the global HPC community to share their innovations, ideas and enthusiasm in the Research Poster and Birds-of-a-Feather Sessions (BoFs) as the conference celebrates its 25<sup>th</sup> year.**

This year, ISC will host over 140 industrial and research exhibitors and 2,000 participants at the Congress Center Hamburg (CCH), from May 31 – June 3.

The deadline for submitting both BoFs and research poster abstracts is Sunday, March 21 and notification of acceptance will be issued on April 12. All proposals must be written in English.

The half day BoF sessions, held on Monday afternoon, May 31 and on Thursday morning, June 3 will consist of 15 parallel 40 minute sessions, providing an informal discussion forum where participants can discuss new ideas and exchange information on topics of mutual interest. Each BoF session will have a different theme and will be coordinated by one or more individuals with expertise in the topic area. For complete guidelines and a BoF submission form, go to <http://www.supercomp.de/isc10/Participate/Call-for-BoFs>.

Both the BoFs and Research Poster Session will be open to all conference attendees, including exhibitors. The Research Poster Session is an excellent platform for presenting latest research results, new projects and innovations. Posters will be available for viewing on Tuesday afternoon, June 1 and during exhibition hours on Wednesday, June 2. A selected poster will also receive the ISC'10 Research Poster Award. For complete information on poster abstract and poster draft submission, go to <http://www.supercomp.de/isc10/Participate/Call-for-Posters>.

#### **Student Volunteers Sought**

ISC'10 is also a perfect platform for undergraduates and graduate students with a passion for supercomputing to learn about the most important developments in the field of HPC. Student volunteers will help run the conference and in exchange, they will receive free conference registration, housing and most meals. Duties will include tasks such as providing technical support to the ISCnet Network Team and general organization, from May 27 until June 3. Students also need to apply by March 21 and will receive their notification of acceptance on April 1. For more information, go to <http://www.supercomp.de/isc10/Participate/Student-Volunteers>

### About ISC'10

Now in its 25<sup>th</sup> year, ISC is the world's oldest and Europe's most important conference for the HPC community, offering a strong four-day technical program with a wide range of expert speakers and exhibits from leading research centers and vendors. A number of events complement the technical program, including Tutorials, Scientific Day, Birds of a Feather (BoF) sessions, a Research Poster Session, Exhibitor Forum and the popular "Hot Seat Sessions" featuring leaders from industry and research centers. The conference has experienced tremendous growth over the last few years, with an estimated 2,000 participants from around the world expected to convene in Hamburg in 2010.

ISC'10 is open to IT-decision makers, members of the HPC global community and other interested parties. The ISC exhibition allows analysts, decision-makers from the automotive, defense, aeronautical, gas & oil, banking and other industries; solution providers, data storage suppliers, distributors, hardware and software manufacturers, the media, scientists and universities to see and learn firsthand about new products, applications and technological advances in the supercomputing industry today. For registration, conference and exhibition information, please visit <http://www.isc10.org/>.
